Reports on Costs Of School Offices

County Superintendent Expense 13.5 Cents Per Capita.

County school superintendents offices during 1935 cost the average Iowan 13.5 cents and all Iowans a total of $333,981, the Iowa Taxpayers association reported Monday.

It also reported that the total cost would have been reduced one-fourth, or $83,313, if the cost of all counties in the same population group had been the same as that of the lowest county in the group.

For instance, the cost of the office in Polk county was about 3 cents for each resident of the county. In Woodbury county the cost was about 4.5 cents for each resident. The average of these was 3.7 cents.

If . . . .

If the cost per person in all the counties of more than 45,000 population had been only 3.7 cents, the offices in these counties would have cost $5,912 less than they did, the association estimated.

Lee and Webster counties were low with an average cost of 8.3 cents among counties of 30,000 to 45,000 population. A saving of $6,834 would have resulted in that bracket if the other counties had been equally low, it was said.

Chances to Save . . .

The association used Mahaska and Appanoose counties to show that $19,156 might have been saved by counties of 20,000 to 30,000; Henry and Mills to show that $30,290 might have been saved by counties of 15,000 to 20,000 and Taylor and Louisa to show that $21,121 might have been saved by counties of less than 15,000 population.

The cost figures included such items as superintendents' and deputies' salaries and extra help, postage, expense of visiting schools and of holding normal institutes and miscellaneous expense.

Per Capita Cost.

The following table gives the per capita cost in each county in 1935. The counties are listed in order of population.

MRS. SANTA

WIREPHOTO © (AP)

The Christmas season is a busy one for Mary Christmas (above), of Racine, Wis., mother of five children. She married Sam Christmas 17 years ago and since has been Mrs. Santa Claus to hundreds of children who write her letters every year.

HOPEFUL

HANS NELSON.
"Maybe I'll Work Again."

Painter Lost 10 Inches, 50 Pounds.

MINNEAPOLIS, MINN. (AP)—Minneapolis' "shrinking man" is staging a comeback.

Hans Nelson, 52-year-old painter, has lost "that tired feeling" which reduced his height 10 inches and his weight 50 pounds during 13 years.

Since he reported to University of Minnesota hospital authorities a year ago, Nelson has had two relapses. But now he has gained 15 pounds, can drive an automobile and "putter around the garage."

Victim of ostiamalacia, a disease produced by over-acceleration of the parathyroid gland, Nelson's stature dwindled from 5 feet 10 inches to five feet.

His weight dropped from 190 to 140 pounds during the 13 years he has been afflicted, but under dietary treatment he has gained 15 pounds.

"Those wonderful doctors have helped me. Maybe I will be able to work again," Nelson said at his home Monday.

Medical authorities, not so optimistic, say Nelson is gaining strength, but the shrinkage has not been definitely checked.
